

NRC2022 poster list

#	Presenter	Poster title
1	Mats Stading	Edible and Sustainable Hot-melt Adhesive
2	Anne-Grethe Johansen	Rheological characterization of the gelatinization process of white sauce based on alternative starch sources
3	Klaus Oldörp	Cheese or Vegan Cheese? – How to Investigate the Texture of Foods with a Rheometer
4	Alexander Bier	Novel High-Speed Elongation Rheometer
5	Johanna Andersson	Rheological Characteristics of Oleogels as Fatty Food Simulant
6	Marko Bek	Rheology of Ultra High Molecular Weight Polyethylenes With Different Molecular Weights
7	Jennifer Tersteegen	Analyzing mechanical and molecular properties of biomimetic silk and how they affect the functionality of the proteins as matrices in composite materials
8	Aneta Teaglów	The effect of extreme cold on rheological and biochemical indicators blood
9	Shubham Sharma	Analysing the Mechanical Strength of Iron(III) Valine Trimesic Amide Gels
